THE ASIA UNIQUE ANNUAL INVENTION EXHIBITION

The Asia Exhibition of Inventions Hong Kong (AEI) is the first exhibition cum competition exclusively devoted to inventions from Asia to be hosted in Hong Kong, by partnering with Palexpo, Geneva, organizer of the International Exhibition of Inventions Geneva.

Under the highlight of the most recent government policies, Hong Kong aims to enhance its transformation into a knowledge-based economy, by taking the city's strength as an innovation and technology hub in the Asia-Pacific region as well as its key role in the Guangdong-Hong Kong-Macao Greater Bay Area. Out of the Area 70 million population and collective GDP reaching US\$1.6 trillion, Hong Kong is the most open and international city, not only for its well-developed finance system, transportation, trade centre and aviation hub, but also its renowned professional services.
